Information

There are 3 to 5 different tours on the program every day. Every day from 7pm you will find the all details about the program of the following day at the information board. Furthermore, there will be a list where you can register until latest 8:30 am for the river of your choice. This will help us to coordinate the transport to the rivers.

Transport

Coach: Coach to the rivers: There are coaches with trailers provided to bring you to the rivers and back. The fare is included in the fee you pay at the beginning of the Wild Wasser Woche.

The transports are partly provided by hired as well as private cars and therefore please make sure to take care of the vehicles. If a damage happens make sure to inform the keeper of the car as well as your assurance and the organizer of the Wild Wasser Woche.

How to get to Truns and leave it at the end:

Please try to share the ride with others, in order to use as few cars as possible.

The Fisher and his hobby

During the Wild Wasser Woche there is a small restriction on how to use the rivers. From 6pm to 9am there should be **no kayakers** on the rivers. Please respect that ordinance. The fishers will be thankful for your respect.

Camping

The participation fee excludes the fee for the camping. You will be able to pay these at the Check-in desk of the Wild Wasser Woche.

The team of the camping in Truns will help you in any way they can. You will be able to order bread, Meat etc. there up until 7pm at the Reception of the camping for the following day.

Please mind the 5pmh at the camping it applies for all vehicles.

Escort on the rivers

We are happy that for some years now we can provide kayakers who will escort the groups on the river. There is space for new joiners with good kayaking skills of course. So, if you are interested please get in touch with the Wild Wasser Woche Team.

The escort kayakers make sure to tell you where the difficulties or dangers are on the rivers. About the security however everybody is responsible.

Important information about the Wild Wasser Woche

Liability: All participants are responsible for their own security. The escorts as well as the organizers of the Wild Wasser Woche will not take any responsibility for accidents or damages. All damages must be cared for by the one causing the damage.

Security: All participants will help to secure difficult parts of the river together. There is a code of honor for all kayakers to help others during accidents or difficulties on the rivers.

Tours

Levels of the rivers: The Level of difficulties of the rivers are based on the Swiss River guide (Edition 1991. The data corresponds to the official ICF-chart.

Fluss	Streckenabschnitt	Km	WW-Grad
